EPIC ARMAGEDDON CLUB CHALLENGE RULES

Overview

The WPS Epic Armageddon rules promote a different style of play to that which you may be familiar with through playing at GW events and tournaments. The overriding objective when putting together this rules pack was that **all** players attending a WPS event should enjoy **every** game they play over the course of the event. To this end there are several mechanisms in place to restrict some of the more extreme armies that players may be tempted to bring. In addition many of the score reporting procedures have developed over the years to the point where we are pleased to say a WPS Epic Armageddon tournament more or less runs itself.
